## CPX

### 1) Apps -> My Apps

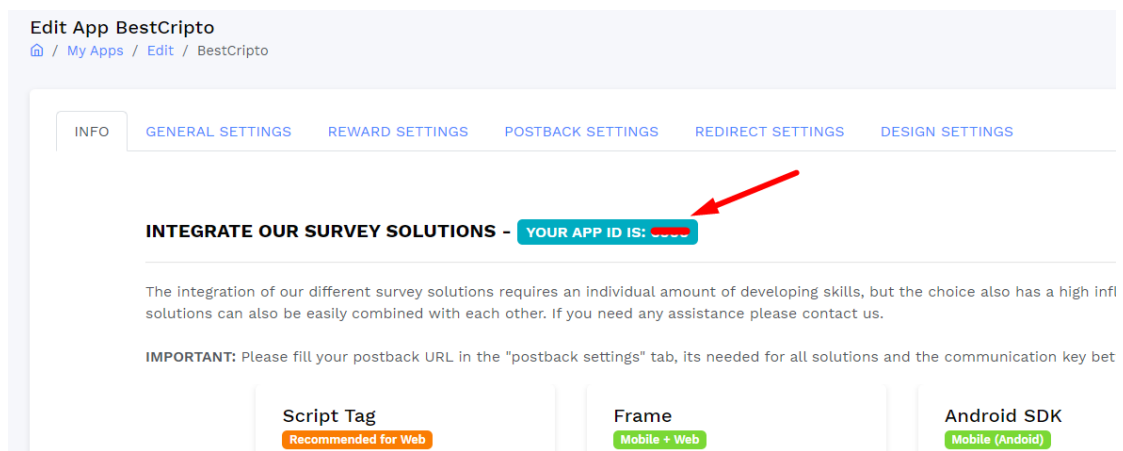

The screenshot displays the CPX Research dashboard interface. At the top left, the logo 'CPX RESEARCH' is visible. A navigation bar contains several menu items: 'Dashboard', 'Apps >', 'Profile', 'Statistics >', 'Payments', and 'Invite new Publisher'. Below the navigation bar, a dropdown menu is open under the 'Apps >' item, with a red arrow pointing to the 'My Apps' option. The dashboard features three main performance cards: 'Clicks! last 7 days' with a value of 40, 'Active Users last 7 days' with a value of 18, and a card with a value of 5.15. At the bottom, a 'Daily Performance' section includes a legend for 'CLICKS' (red), 'COMPLETES' (blue), and 'OUTS' (orange).

### POSTBACK SETTINGS

Main Postback URL

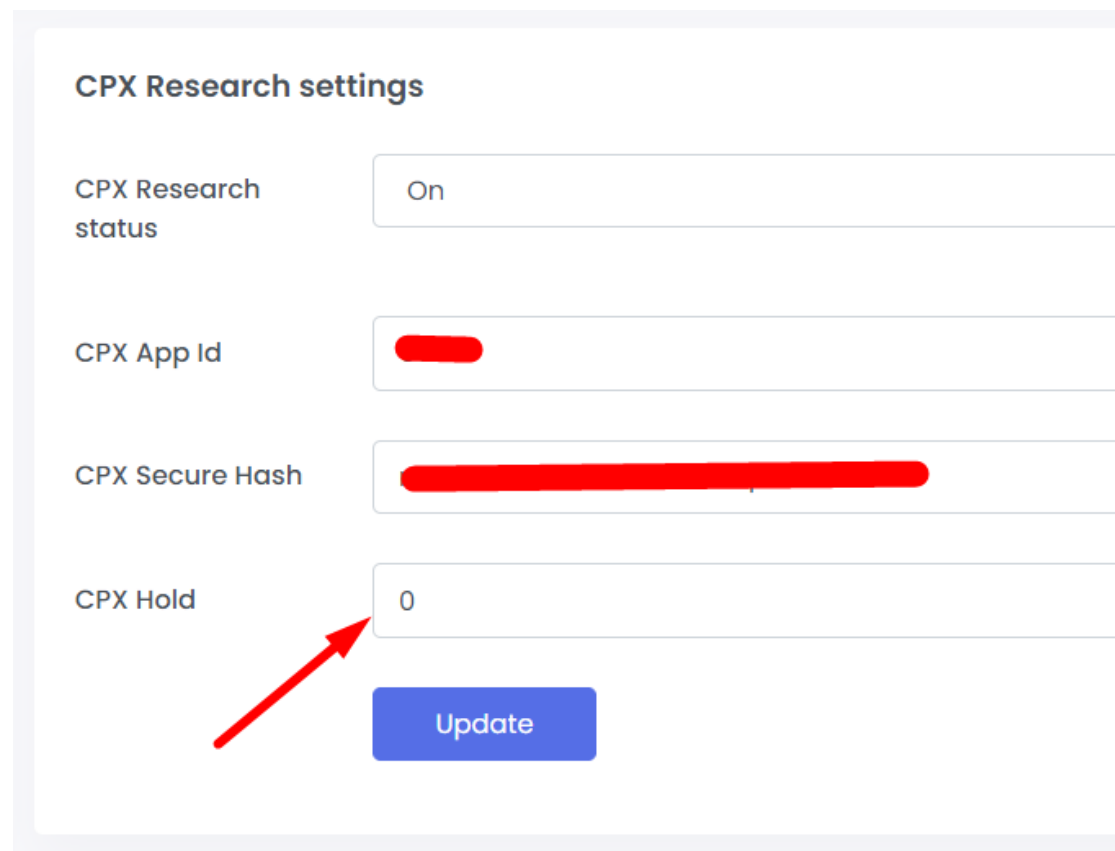

**Important:** In case a complete will be detected as fraud (usually within 15-60 days), we will call your postback URL again. If the &status={status} parameter is used, the status will change to =2 in the second call. We also recommend to use a unique transaction ID in your postback.

## 9) CPX Hold

Its a holding time as days for how long users have to wait after completing an offer.

If you set it as 2 that means when user completes an offer, user will receive the money 2 days later. ( The offer will be pending until you accept it )

If you set 0 then user receive instant.

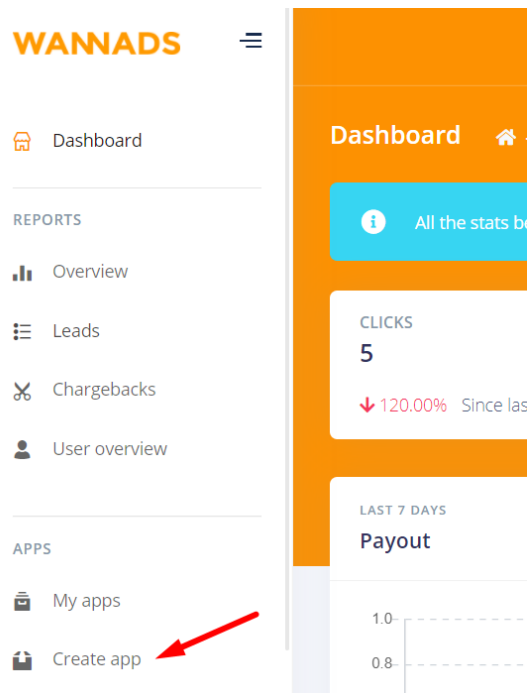

The image shows a settings form titled "CPX Research settings". It contains four input fields and an "Update" button. The "CPX Hold" field is highlighted with a red arrow pointing to the value "0".
